Address: Karachi, Pakistan

SUMMARY

A Software Engineering graduate with experience developing Web and Mobile Applications using HTML, CSS, Bootstrap, JavaScript, React JS, Next.js, React Native and many other related frameworks and libraries.

EDUCATION

Bachelor of Software Engineering | Bahria University Karachi Campus | 2021-2025

Intermediate Pre-Engineering | Government Degree College SRE Majeed | 2018-2020

Matriculation - Computer Science | Bahria Model School ii Majeed SRE | 2017 – 2018

Work Experience

Trainee Software Engineer | Information technology services

Sep 2025 - Present

- Learning and implementing full-stack development concepts with a focus on modern web technologies.
- Developed a dynamic website using **Next.js**, applying React-based server-side rendering and routing.
- Gained hands-on experience with **SQL** for database management and data querying.
- Currently learning **PHP** to strengthen backend development skills and integrate with relational databases.
- Collaborating with team members to understand software development life cycle (SDLC) and best coding practices.

React Native Developer | Stallyons Technologies

Feb 2025 – May 2025

- Developed responsive and user-friendly mobile app interfaces using React Native, ensuring smooth user experience across both Android and iOS platforms.
- Integrated RESTful APIs to fetch and manage dynamic data, enhancing app functionality and performance.
- Collaborated with backend teams to test and troubleshoot API endpoints for seamless front-end integration.
- Optimized UI components for performance and reusability, following React Native best practices.
- Utilized tools like Postman and Axios for API testing and implementation within React Native applications.

React Native Intern | Kudu consulting LLC

July 2024 - Sep 2024

- Developed pixel-perfect UI components, ensuring responsive and high-quality designs across devices.
- Implemented custom hooks to optimize code reusability and maintain cleaner code architecture.
- Integrated Firebase for backend services, including authentication, database management, and cloud storage.

PROJECTS

Help Mate (React Native)

- Developed a mobile application to assist travelers on highways by providing nearby fuel, medical, and mechanic services.
- Integrated Google API for accurate navigation and location-based service recommendations.
- Implemented a user-friendly interface ensuring quick access to essential services in emergencies..

LANGUAGES, SKILLS AND CERTIFICATES

- **Languages:** English (intermediate)
- **Skills:** Knowledge of HTML, CSS, and JavaScript,React,Nextjs,ReactNative,Firebase,redux toolkit, tailwindcss
- **Certifications:** Frontend Web & Mobile App Development
